HEIDELBERG ALUMNI ASSOCIATION

The objective of the Alumni Association is "to promote friendship, to preserve the intimate relations the alumni hold to each other, and to advance the interests of our Alma Mater."

The officers of the Association are: president, vice president, secretary and treasurer, and registrar. The Executive Committee consists of the officers, the immediate past president, and four members of the Alumni Council. The Alumni Council is made up of the Executive Committee, one representative from each local club and sixteen representatives appointed by the Executive Committee.

Every graduate of the College is a member of the Alumni Association. Any former student who has completed a full year's work and whose class has graduated becomes an associate alumnus. The Alumni Office maintains a complete file of all graduates and non-graduates.

Each year the Alumni Association through the Living Endowment Fund sponsors some project for the benefit of the College. Each alumnus is asked to contribute something although no definite amount is asked. There are no alumni dues.

The Alumni Bulletin is issued six times annually, the Alumni Roster occasionally. These publications are sent to all alumni. Annual catalogues and other literature are sent to alumni upon request.

PREFACE

The present publication of the Alumni Roster is the sixth to be issued and is the most extensive directory of Heidelberg alumni and associate alumni ever attempted by the College.

Within the past year many names of associate alumni have been added to the files in the Alumni Office, and although there are still several hundred whose addresses are unknown they are being included in the Roster. This may account for a name in the alphabetical index not appearing in the other classifications.

The names of those who have received honorary degrees from the College are also listed since our Constitution accords them membership in the Alumni Association. A special section, following the class lists is devoted to them.

A few names of former students who were enrolled in special courses are given in a miscellaneous group. Because of their professed interest in the College their names are included.

Section One, containing the alphabetical index, gives the names and classes of alumni, associate alumni, and honorary members. Names of married women appear under their maiden and married names. The alphabetical classification is placed first in order that it may be used as an index to the book.

Section Two lists the alumni geographically according to cities, states, and countries. This feature of the Roster will be of great help to the alumni in their travels.

Section Three gives the occupations and business and residence addresses of alumni by classes.

No doubt the Roster contains errors, as all the Roster cards were not returned. In these cases information was taken from our office files. Addresses are also constantly changing.

We are grateful to the alumni who responded so well to the appeals for information and particularly to Mrs Josephine Einfalt who assembled and compiled this material for the Roster.

E. R. BUTCHER, Alumni Secretary
DORIS MEESE, Assistant
